

Online Solutions,
Delivered by Experts

Frontier offers a complete suite of easy-to-use services that allow you to book, manage, and track all of your shipments and invoicing online.

Online Track and Trace

- Frontier offers online quick tracking to track your shipments from anywhere
- Online PARS and PAPS trackers to ensure your goods are customs released on time.

Web Shipping

- Frontier's shipping program allows you to add orders online as well as check status updates
- Print compliant bar-coded shipping labels direct from our online web portal

Web Rates

- Frontier Ship allows Frontier's partners and clients to acquire accurate rates when they need them.
- Access Quick quotes from the online shipping program so you can tell how much freight is going to cost, before it moves

EDI Invoicing

- All invoices are available in electronic EDI format for easy access, storage, and organization

Online Education and Training

- Frontier offers various training seminars and courses to help you understand the intricacies of doing business across the Canada-US border.
- In 2011, Frontier will be offering these seminars in a web based format to be viewed by our clients
- Furthermore Frontier offers a variety of Primers, Documents, News Letters, and Forms all available online to help you understand your cross border trade
