

BC Road Surcharges effective November 29, 2021

November 26, 2021

Re: British Columbia Additional Cost Recovery Surcharges

Dear Valued Customer,

We continue to work with you and your consignees to implement alternative routings to pick up and deliver shipments in and out of British Columbia.

We're also accepting pick-ups from Canada and the US heading to these locations, and we've started moving the freight that was already in our system destined to points serviced by these terminals.

Due to extra miles and extended wait times, until further notice, additional cost recovery surcharges will apply to all shipments in and out of British Columbia delivered through alternative routes, as outlined below:

•LTL/TL: Flat \$30.00/shipment plus \$2.50/cwt

Thank you for your understanding as we navigate the unprecedented challenges caused by extreme flooding and landslides in BC.

Sincerely,

Frontier Supply Chain Solutions Inc.
