

# FRONTIER

All parcel ground shipments will be subject to a fuel surcharge based on the weekly average reported by MJ Ervin and Associates, updated after 4:00 PM on Monday of each week. This index price may be obtained at <http://charting.kentgrouppltd.com/>. If Monday is a holiday, the index will be available on Tuesday. The applicable surcharge will become effective on the Wednesday immediately following.

If the national average price of diesel rises above the following table, the surcharge will increase proportionately. Fuel surcharges are subject to change without notice. The fuel charge is shown as a separate amount on the freight bill.
